

# Cardinal Contractors

## SPECIALIST SOLUTIONS

in Civil Earthworks, Progressive  
Minesite Rehabilitation,  
Heavy and Bulk Haulage

# OUR PROMISE

From the first handshake to the final hand over we work with the promise of respect, integrity and excellence. Over the decades we've built an enviable reputation through our philosophy:

Get the job done safely and with experienced people

Deliver on our promises to you at all times

Provide well maintained, fit for purpose plant and equipment to deliver your job in the best possible time and standard

Nurture collaborative business relationships

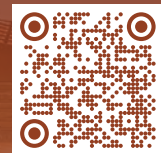

# FORMIDABLE FLEET

Impressive fleet of state-of-the-art bulk heavy haulage equipment

We have the capability for the largest of jobs with the toughest of machinery.

We have invested in our capability and capacity to deliver on multiple projects and the largest of tasks through our comprehensive fleet of plant equipment, heavy machinery, transport vehicles and our Collie workshop facility which ensures our fleet is maintained to the highest levels.

Transforming communities and landscapes with award-winning project expertise

## Humble beginnings ... big potential

### 1962

CGW Bulldozers, heavy haulage and earthmoving operation starts, backed by £15,000 from Collie businessman Norman Dorsett

### 1963

CGW Bulldozers renames to Cardinal Contractors

### 1964

Cardinal Contractors moves to Preston Road, Collie (*where we are still based*)

### Mid 1960s

Undertakes groundworks for Muja Power Station

# PROVEN PARTNER

Track record of trusted, reliable, accountable partnerships

From humble beginnings to a state-of-the-art, leading earthworks and progressive rehabilitation company, we have developed relationships and transformed landscapes across Australia since 1963.

Our proud and productive 60+ year history, has forged partnerships from Collie to the Kimberley, across large scale projects and sectors.

We know our communities, our operations, and our partners. And we always deliver.

We are the expert, number one choice for transformational projects - from developing dams and airstrips, loading and hauling ore, scoping and managing large scale earthworks and drainage projects, to progressive minesite rehabilitation and being a trusted local procurement partner.

## Community commitment

### 1970s

Underpins the growth of the Collie community and surrounding areas:

- Earthworks for the Mineworkers Memorial Swimming Pool Collie
- Maintains the Westralia Scramble Track at Allanson
- Collie speedway construction is completed in time for the opening of the 1971 season
- Local employer and actively training apprentices and Aboriginal and Indigenous trainees

80

## Statewide expansion

### 1980s

Signs several major projects for the development of WA:

- Earthworks for the Harding River Dam in the Pilbara which becomes Karratha's chief water supply
- Admired for our capability and professionalism, Cardinal Contractors is bought by Western Collieries (later to become Wesfarmers Group)

### 1987

Expands to the Goldfields

90

## Quality assurance

### Early 1990s

Continues expanding and diversifying expertise:

- North Dandalup Dam Project
- Bronzewing, Jundee and Gidgee Gold Mines - airstrips, crusher feed, haul road construction
- Big Bell Gold Mine tailings dam construction, ore haulage and crusher stockpile management
- River diversion project undertaken for Western Collieries Goldfields

### 1996

Leads expansion projects for Premier Minesite (Wesfarmers Group)

### 1997

Achieves ISO 9002 assurance

00
